The Rosewood Farms Shop is web-based, although as Wholesome Food Association members we are happy to show customers our production methods. The range of products available is constantly being expanded and included in our online shop. Knitting yarns & garments from our pedigree flock of Kerry Hill sheep, Dexter & Highland beef, rare breed pork & Kerry Hill lamb, hogget & mutton (to order). All our cattle, sheep & pig diets are GM free, grown on the farm or those of our neighbours so we can maintain full control over what goes into our meat.

We also stock a range of our recommended information sources from across the globe, giving essential guidance for sustainable agriculture; enjoying what you consume & ensuring that all those involved reap the benefits.
