

Agroforestry Research Trust

Contributed by MartinC

The Agroforestry Research Trust sells books, seeds and plants related to all aspects of fruit and nut trees and agroforestry.

Our plant nursery supplies by mail order all over Europe and specialises in fruit and nut trees and bushes from the common or garden to plants you may never have considered useful.

We have the widest selection of useful and edible plants in Europe. So whether you're looking for a Szechuan pepper, chokeberry or more common apple, pear or plum tree you'll find what you're looking for in our online catalogue at www.agroforestry.co.uk

We also host various courses and open days, please check website for details
