

Charcoal Production Course

5th May 2012. 9am – 5pm.

Hensons Wood, Rackenford, Tiverton, Devon. EX16 8DW.

Over a day you will learn to unload the kiln, grade and bag the charcoal, how to reload the kiln and light it. During the day we will monitor and control the burn using a smaller kiln and identify the signs that the burn is complete. You will also spend time exploring the woods, discussing sustainable harvesting of wood for charcoal production, marketing and packaging charcoal and other aspects of charcoal making.

By the end of the course you will have learnt how to make charcoal in a metal ring kiln, have a good overview of charcoal production and have a bag of charcoal for your own barbecue.

Instruction will be given by Pete and Anna Gurgeon of the Bulworthy Project.
www.bulworthyproject.org.uk

Cost: £17 for those eligible for RDPE funding*, £34 for non-eligible participants.

Refreshments will be provided. Please bring a packed lunch.

For further information and to book your place, please contact Victoria Hughes on
01752 846400 or at victoria.hughes@silvanus.org.uk

***All are welcome, however, attendees will need to be living and working in the south west and working in private sector farming or forestry to receive RDPE support.**

This event is funded by the RDPE Skills programme, which is a SW RDA initiative, funded through the Rural Development Programme for England (RDPE).
